Higher Education Accountability System

Participation - Out-of-State Peers

Out-of-state peer data is from the Fall 2014 IPEDS report and may not match accountability data because of differences in the source of the data. Accountability measures are primarily derived from institutional data sent to the CB for CBM reports. Data reported on this out-of-state peer link is obtained from the IPEDS system of institutional reporting to the federal government. Data differences may result from different reporting periods and different definitions for the data elements.

The data for this accountability measure is tracked for one year for students who met TSI and for one, two, and three years for students who did not meet TSI for this report.

*The Unknown (unduplicated) category does not include students who are unknown in some areas and not met in others.

**Unknowns by area include students with waivers or exemptions who have not been reported as meeting TSI on a performance measure; FTIC students with waivers or military exemptions who were reported as meeting TSI in all areas based on performance measures are included in the "met state standards in all areas" category.

Quality Enhancement Plan

37. Quality Enhancement Plan, Including Reaffirmation Year 

The University's Quality Enhancement Plan is "Increasing Reading and Engagement for Academic Development," known as iREAD. To date, a total of 1,117 freshmen have volunteered to participate in iREAD wherein academic development is facilitated by increasing reading, the ability to construct meaning from paper and/or electronic mediums/texts; formation of habits, repetitive behaviors in preparing, organizing, and managing learning processes; and increased engagement, a psychological investment in learning that involves understanding the material and incorporating or internalizing it in one's life.

The theme-based, reading-centered program calls for students to enroll in living/learning communities and in Principles of Effective Learning courses. Each iREAD student is assigned to a team comprised of an academic coach, course faculty, and a residential learning community coordinator who facilitate engagement in the class, related campus and off-campus events, and interactions with faculty and/or leaders of departments in the student's declared or proposed academic major as well as with various services including but not limited to career, counseling, advising and others.

Excellent Programs

38. Excellent Programs 

Highlighted Excellent Programs 1

Prairie View's Roy G. Perry College of Engineering is made up of six departments: Chemical Engineering, Civil and Environmental Engineering, Computer Science, Electrical and Computer Engineering, Engineering Technology and Mechanical Engineering. We offer a total of eight bachelor's degrees, four master's and one doctorate. Our Masters of Science in Engineering degree program provides the option for concentrated study in either Chemical, Civil, Environmental or Mechanical Engineering.
