Source: Coordinating Board Management (CBM) Report 001

Texas A&M University's efforts to increase the diversity of our student body and make it more representative of the state of Texas are reflected in the large percentage increases in African American, Hispanic, and Asian Students in recent years. It should be noted that we reached 15% Hispanic for the first time in Fall 2011 and have continued to increase the enrollment of Hispanics to 19.5% in 2015. In addition, applications to the university continue to increase with more than 38,000 freshmen applicants for Fall 2015. One quarter of our freshmen class is first generation.

Full-Time Equivalent Enrollment

2. Fall semester credit hours (SCH) includes undergraduate(15), master's(12), doctoral(9), special-professional(12), and optometry(17).

	Fall 2000	Fall 2014	Fall 2015	% Change Fall 2000 to Fall 2015
Total FTSEs	37,418	48,619	50,157	34.0%
State-Funded FTSEs	37,104	48,011	49,494	33.4%

NOTE: The percentage change is based on the actual FTE numbers and may vary slightly from the calculation produced by the rounded numbers. Post-baccalaureate students are counted separately from master's for headcount enrollment and are counted with master's for FTE enrollment calculations.

Most undergraduate students at Texas A&M are full-time. We anticipate no change in this trend.

Percentage graduate SCH to total SCH	10.3 %	14.2 %	14.0%	3.7

Texas A&M University expanded enrollment with the addition of the School of Law in Fall 2013 and planned growth on the main campus, most significantly as part of the College of Engineering's 25 by 25. Texas A&M University's main campus is now the largest in the state. We also enroll 405 out of state, non-resident distance education students as well as 542 students at our branch campus in Qatar, both not included in the official numbers counted by the THECB. In addition, Texas A&M students enrolled within our Health Science Center and at our branch campus in Galveston are reported separately to the state.

Participation - Out-of-State Peers

Out-of-state peer data is from the Fall 2014 IPEDS report and may not match accountability data because of differences in the source of the data. Accountability measures are primarily derived from institutional data sent to the CB for CBM reports. Data reported on this out-of-state peer link is obtained from the IPEDS system of institutional reporting to the federal government. Data differences may result from different reporting periods and different definitions for the data elements.

Source: CBM001, CBM002, and CBM009

Texas A&M's 4-, 5-, and 6-year graduation rates continue to improve, a trend we expect to continue as we focus on progress toward degree initiatives. Major improvement in 4-year graduation rates are due to more 120-hour degrees, better advising, and using flat-rate tuition to encourage students to take more hours. In addition, we have launched an online degree planning tool for undergraduates that will also provide course forecasting needs. Our graduation rates remain among the highest in the state.

Degrees and certificates awarded

10. Number of degrees and certificates awarded. 

	FY 2000	FY 2014	FY 2015	% Change FY 2000 to FY 2015	Institutional Closing the Gaps Target-FY 2015	Closing the Gaps Completion

Source: CBM009

Texas A&M University far surpassed its 2015 goal of 12,500 degrees annually, and when combined with the HSC and Galveston campus, the total is now 14,570 annually. Further, success in our efforts to recruit a more diverse student body is evident by significant increases in degrees awarded to African American, Hispanic and Asian students, despite a drop in African American degrees in 2015.

11. Undergraduate degrees to at-risk students

Doctor's Research/Scholarship	221	394	354	336	52.0%		

* Includes baccalaureate and associate degrees.

Science and engineering continue to be major strengths at Texas A&M. We are steadily increasing graduates in STEM fields to meet the critical needs of the state. In a recent Forbes analysis, Texas A&M was ranked 14th for best colleges for minorities graduating with STEM degrees. It should be noted that these numbers represent only a subset of STEM degrees awarded by the university as agricultural sciences and biological sciences are not currently considered critical fields in Texas. In addition, the number of 467 shown for the physical sciences in FY2000 is misleading. That number includes 372 graduates of our undergraduate BIMS program which the CB reclassified in FY2001.

Nursing and Allied Health

13. Degrees and certificates awarded in nursing.

	FY 2000	FY 2013	FY 2014	FY 2015	% Change FY 2000 to FY 2015	Institutional Closing the Gaps Target- FY 2015*	Closing the Gaps Completion*

Gender				
Male	96.0%	98.0%	96.0%	
Female	98.0%	97.0%	98.0%	

Note: The data for teacher production and certification was provided by SBEC. In some cases, the sum of the categories does not add up to the total. Numbers less than 10 in a category are suppressed. Data for the most recent year shown may be incomplete.

Preparing highly qualified teachers is one of the most important missions of Texas A&M University, particularly as we lead the state in the number of math and science teachers. FY2013 was an unusual year with a significant increase in the number of students taking certification exams that year, but returning to more consistent levels in FY2014. Our goal is to maintain high pass rates on the teacher certification exam.

Graduation and Persistence Rate: 6-Year

Other	0	290	86	15	14	405

Excellence - Key Measures

Faculty Teaching

	Fall 2000	Fall 2013	Fall 2014	Point Change Fall 2000 to Fall 2014
33. Tenured/tenure-track faculty teaching lower-division SCH 	37.1%	36.3%	31.6%	- 5.5

With the growth in enrollment, more non-tenured track faculty have been hired to teach lower division courses. We expect the percentage drop to reverse as more tenured/tenure-track faculty are hired.

Student/Faculty Ratio

34. Full-time student equivalents (FTSE) divided by full-time equivalent (FTE) faculty. 

	Fall 2000			Fall 2013			Fall 2014			% Change Fall 2000 to Fall 2014
	FTSE	FTE	Ratio	FTSE	FTE	Ratio	FTSE	FTE	Ratio	
FTSE/FTE Ratio	37,418	1,634	23:1	45,911	2,016	23:1	48,619	2,114	23:1	0.4%

Texas A&M University's student to faculty ratio remains one of the highest among our peers. While the ratio had declined from 23:1 to 19:1 following a faculty reinvestment plan that concluded in 2009, the student to faculty ratio climbed back up following budget reductions in 2011. Recent enrollment growth has not resulted in further changes to the student-faculty ratio.

State and National Exams Success

35. Certification and licensure rates 

	FY 2000	FY 2014	FY 2015	Point Change FY 2012 to FY 2015
Law	N/A	87.3%	N/A	N/A
Pharmacy	N/A	N/A	N/A	N/A
Nursing	N/A	94.3%	N/A	N/A
Engineering	89.5%	90.1%	91.7%	1.7

In Fall 2013, Texas A&M University began offering a degree in law in Fort Worth.

Tenured/Tenure-Track FTE Faculty

	Fall 2000	Fall 2013	Fall 2014	Point Change Fall 2000 to Fall 2014
36. Percent of FTE teaching faculty who are tenured/tenure-track 	75.8%	71.9%	70.6%	- 5.2

Quality Enhancement Plan

37. Quality Enhancement Plan, Including Reaffirmation Year 

The Texas A&M University Quality Enhancement Plan is Aggies Commit to Learning for a Lifetime. It asks our students to make a commitment to purposefully engage in high-impact learning experiences and thoughtfully reflect on their learning experiences in order to develop the habits and skills for integrative and lifelong learning. It calls for our institution to create a culture with opportunities and support for student engagement and reflection.

Plan website:
<http://provost.tamu.edu/initiatives/quality-enhancement-plan>

Excellent Programs

38. Excellent Programs 

Highlighted Excellent Programs 1

Transfer Student Program

The Transfer Student Program (TSP) is a program designed for incoming transfer students to learn more about the resources at TAMU, make connections with other transfer students, faculty and staff and actively encourages engagement on all levels of the university.

Transfer students sometimes face unique challenges, challenges that may only become apparent as the semester progresses; the TSP eases the transition into Texas A&M University. We offer social and academic support throughout the semester, to all colleges and majors. On staff are a number of Transfer Student Peer Mentors (TSPM) from a variety of colleges. Our TSPMs are all former transfer students, extensively trained and hold office hours and will do their best to help you find answers to questions, resources and encouragement so that you can get the most out of your experience at TAMU.

More information available at: [http://successcenter.tamu.edu/Programs/Transfer-Student-Program-\(TSP\)](http://successcenter.tamu.edu/Programs/Transfer-Student-Program-(TSP))

Highlighted Excellent Programs 2

Diversity Plan

Diversity is an indispensable component of academic excellence. We simply cannot achieve academic excellence without paying attention to and drawing from the richness and strength reflected in the diversity in our state and nation. Empirical evidence shows the educational benefits of diverse learning environments which foster civic learning and engagement and prepare us to live in an increasingly global and complex world. Diversity is rooted in our land grant mission & core values: Loyalty, Integrity, Excellence, Leadership, Selfless Service, Respect. Our commitment to diversity, broadly speaking, encourages respect for individual differences. Respectful treatment of others affirms and encourages individuals to take pride in their identity and results in the inclusion of all in the "Aggie Family." The Aggie family is diverse. In 2010, Texas A&M University embarked on an ambitious Diversity Plan designed to enhance accountability, climate, and equity. The structures and systems that guide our established institutional processes have created the infrastructure to facilitate steady progress toward greater inclusion and academic excellence. Sloan Research Fellows	0	1	1	N/A

Texas A&M University continues to recruit and retain award winning faculty who excel in education through teaching in and out of the classroom and in research and service. While average faculty salaries at A&M compare favorably with the national average, they remain below other tier 1 research institutions.

Texas A&M University is ranked as one of the nation's top research universities by the National Science Foundation, and returned to the top 20 beginning in FY13. FY14 NSF rankings of total research expenditures has Texas A&M University at 17th with \$854 million, which includes the HSC. For state purposes, HSC research expenditures are reported separately within this accountability system. As a research-intensive institution, TAMU focuses on a wide range of priorities including the life sciences, energy, bioinformatics, material science and nanotechnology.

Institutional Efficiency and Effectiveness - Key Measures**Administrative Cost**

	FY 2000	FY 2014	FY 2015	Point Change FY 2000 to FY 2015
52. Administrative costs as a percent of operating budget 	3.4%	3.7%	3.6%	0.2

Historically, Texas A&M has had the lowest administrative cost ratio in the state. Texas A&M is committed to keeping administrative costs down; we believe that doing so is one of the best ways that we can earn the confidence and support of our students, our faculty, and the citizens of Texas.

Space Usage Efficiency (SUE)

53. Space usage efficiency measure of the effectiveness and efficiency of existing teaching space utilization. Classroom and lab passing score is 75 and overall passing score is 150.

	Fall 2014	Fall 2015
Classroom space use efficiency	84	92
Lab space use efficiency	100	100
Overall space use efficiency	184	192

TAMU continues to actively manage all spaces at the College Station Campus, in support of its institutional mission. The University's Council for the Built Environment oversees the application of a set of space management best practices to efficiently and effectively plan and utilize our physical resources. TAMU continues to be in compliance with the THECB generated SUE classroom & teaching lab utilization metrics, ranking second and first in the state respectively.

Appropriated Funds per FTE Faculty

54. State appropriations divided by full-time equivalent students and annual full-time equivalent teaching faculty.

	FY 2001	FY 2014	FY 2015	% Change FY 2001 to FY 2015
Appropriated funds per FTE student	\$6,537	\$7,277	\$6,947	6.3%
Appropriated funds per FTE faculty	\$71,088	\$76,663	\$74,752	5.2%

Historically Underutilized Business (HUB)

	FY 2000	FY 2014	FY 2015	%/Point Change FY 2000 to FY 2015
55. HUB Expenditures without construction (Millions) 	\$ 6.954	\$ 27.195	\$ 30.063	332.3%
Percent of total expenditures	6.5%	10.6%	10.1%	3.6
HUB Expenditures with construction (Millions)	\$ 7.037	\$ 41.121	\$ 61.285	770.9%
Percent of total expenditures	6.6%	16.1%	20.7%	14.1

Texas A&M is pleased to have made such progress over the last several years in working with Historically Underutilized Businesses. Our success has been the result of concerted effort across the university.

Operating Expenses per FTE Student

	FY 2001	FY 2014	FY 2015	% Change FY 2001 to FY 2015

 Link to additional information: <http://www.thecb.state.tx.us/FRP/SU/>

Texas A&M continues to be affordable for all Texas families and is consistently recognized as one of the best values in American public higher education. We have maintained affordability by reducing administrative costs, increasing financial aid, and keeping designated tuition increases smaller than those at many other Texas universities.
