# Higher Education Accountability System

## Participation - Out-of-State Peers

Out-of-state peer data is from the Fall 2014 IPEDS report and may not match accountability data because of differences in the source of the data. Accountability measures are primarily derived from institutional data sent to the CB for CBM reports. Data reported on this out-of-state peer link is obtained from the IPEDS system of institutional reporting to the federal government. Data differences may result from different reporting periods and different definitions for the data elements.

The data for this accountability measure is tracked for one year for students who met TSI and for one, two, and three years for students who did not meet TSI for this report.

\*The Unknown (unduplicated) category does not include students who are unknown in some areas and not met in others.

\*\*Unknowns by area include students with waivers or exemptions who have not been reported as meeting TSI on a performance measure; FTIC students with waivers or military exemptions who were reported as meeting TSI in all areas based on performance measures are included in the "met state standards in all areas" category.

**Quality Enhancement Plan**

37. Quality Enhancement Plan, Including Reaffirmation Year 

Given institutional data on challenges facing first-year students, and the University's longstanding commitment to excellence in undergraduate education, Texas A&M University-Corpus Christi has designed the First-Year Islanders quality enhancement plan to improve the academic experience, retention and learning of first-year students. There are two parts of the First-Year Islanders Plan: (1) a student affairs/academic support services partnership to transition students from high school to higher education, and (2) a faculty-directed initiative to invigorate classes to improve student learning. As a result of the FYI, a greater percent of first-year students will use academic support services, demonstrate mastery of the Student Learning Outcomes of gateway courses, and achieve academic success in their first term in college, thereby increasing their chances of persisting toward a degree at Texas A&M University-Corpus Christi. The full FYI plan can be found at: <http://qep.tamucc.edu>

**Excellent Programs**

38. Excellent Programs 

**Highlighted Excellent Programs 1**

Coastal and Marine System Science PhD program. This program integrates biogeochemistry, geographic information science, ecosystem dynamics and quantitative modeling in understanding global coastal and marine processes, including their socio-economic significance. Graduates are highly sought after and are taking influential positions in other universities, NOAA and other agencies. Faculty are heavily involved in research related to the Deepwater Horizon oil spill and multinational research related to the Gulf of Mexico. <http://cmss.tamucc.edu/index.html>

**Highlighted Excellent Programs 2**

A&M-Corpus Christi is a center for surveying and geospatial science research, especially as they relate to the coastal environment, and has just gotten approval for a PhD in Geospatial Computing Sciences. Applications include establishing accurate coastal elevations, monitoring coastal subsidence and sea level change, and aiding marine navigation. Geospatial academic programs are closely linked to real-time data collection and analyses provided by the Texas Coastal Ocean Observation Network and Texas Spatial Reference Center. <http://gisc.tamucc.edu>
