Total graduate semester credit hours	7,230	16,265	15,828	118.9%
Percentage graduate SCH to total SCH	4.9 %	7.1 %	6.7%	1.8

The significant application and enrollment increases that we have experienced since 2000, along with increased admission requirements have contributed to the fluctuations in our accepted and enrolled percentages. From 2012 to 2013, SHSU experienced a 10% increase in first time freshman applicants.

**Participation - Out-of-State Peers**

Out-of-state peer data is from the Fall 2014 IPEDS report and may not match accountability data because of differences in the source of the data. Accountability measures are primarily derived from institutional data sent to the CB for CBM reports. Data reported on this out-of-state peer link is obtained from the IPEDS system of institutional reporting to the federal government. Data differences may result from different reporting periods and different definitions for the data elements.

Note: The data for teacher production and certification was provided by SBEC. In some cases, the sum of the categories does not add up to the total. Numbers less than 10 in a category are suppressed. Data for the most recent year shown may be incomplete.

Recent revisions in Texas Administrative Code changed the pass/fail calculation protocol. Under the new method, completers within an academic year were counted as "passing" or "failing" on the best attempt for any certification test that was taken prior to August 31 of the completion year. If a candidate failed a test prior to August 31, that candidate was counted as a failure, even if the candidate subsequently passed and became certified after August 31. Additionally, if candidates never attempted the test, the scores would not be included in the pass rate calculation, even if they passed and became certified later. Thus, fewer candidates were included in the calculation and pass-rates were also affected, since many re-tests were not considered.

SHSU has experienced rapid growth at both the undergraduate and doctoral levels. The rapid growth at the freshman level necessitated the hiring of pool faculty. In addition, the development of new doctoral programs has led to the use of more doctoral teaching assistants in lower division courses.

Rapid new growth and increased undergraduate, masters and doctoral programs have resulted in the need to increase pool faculty and doctoral teaching assistants. SHSU is developing plans to convert some pool faculty to tenure-track faculty in order to meet its growing needs.

**Quality Enhancement Plan**

**37. Quality Enhancement Plan, Including Reaffirmation Year** 

The SHSU QEP aims to improve critical thinking and scientific reasoning in non-science majors, through a new General Education (GE) science course called Foundations of Science (FOS). In 2008 science faculty thought that SHSU students did not understand the nature of science sufficiently to think scientifically. Needs assessment revealed poor student performance in GE science courses. Scores on the Critical Thinking Assessment Test [CAT] and a locally developed Foundations of Science Exam [FSE] reinforced the need to enhance critical thinking and scientific reasoning skills. The FOS teaches students to critically evaluate information and make informed decisions on the basis of reasoned evaluation. It introduces basic scientific facts from a variety of scientific disciplines while emphasizing critical thinking, as embodied in the scientific method. Assessment data reveal that students who have taken the FOS course have significantly improved their critical thinking and scientific literacy. <http://www.shsu.edu/~qep/index.html>

Academic Community Engagement (ACE) is a teaching method that combines community engagement with academic instruction. The ACE initiative allows students to use skills and knowledge gained in the classroom to make a difference and improve life in the community by understanding their roles as community members. At SHSU students are working to make a difference in communities at the local, state, national, and international levels and are connecting these actions to course objectives. Through course-related service in the last year, SHSU contributed over 800,000 hours, equating to \$17 million dollars to community service in fiscal year 2013. Student organizations and student athletes contributed over 16,125 additional hours of service and raised over \$36,000 to assist charities. Through initiatives, courses, and volunteer opportunities, SHSU will continue to be a model of how community engagement is incorporated into a learning culture. Currently over 200 courses carry ACE designations. <http://www.shsu.edu/academics/cce/ace/index.html>

**Highlighted Excellent Programs 2**

Sam Houston State University recognizes the value of undergraduate scholarship—both for our students and our faculty members. The SHSU Center for Enhancing Undergraduate Research Experiences and Creative Activities (EURECA) advances the culture of scholarly and creative excellence by cultivating and developing faculty-mentored, discipline-specific inquiry among undergraduate students. The Center also educates undergraduate students about how discipline-specific inquiry enriches the academic experience and helps them realize professional goals. No matter what the student's major, SHSU provides many opportunities for undergraduate students to participate in faculty-mentored projects specific to their area of study and encourages students to begin actively engaging in research and creative activities as early as possible in their academic career. Through the EURECA program, SHSU prepares undergraduate students to compete successfully for outstanding graduate and professional programs and equips them to join a globally engaged professional and creative community. <http://www.shsu.edu/centers/eureca/index.html>
