Working only	All participants that are found working in the TWC UI wage records, military, USPS (US Postal Service) and OPM (Office of Personnel Management) databases but not enrolled in higher education

Methodology for the Exit Cohort Reports

Cohort	All individuals enrolled in Texas public institutions during FY 200Y
Employment Records	The records were matched with TWC UI wage records and national databases including Office of Personnel Management, US Postal Office and military records from Department of Defense. Employment was determined if the former student was found working in the 4 th quarter 200Y according to the records mentioned.
Enrollment Records	The records were matched with public and private postsecondary enrollment records for predetermined periods of analysis. Pursuit of additional higher education was documented if the former student was found enrolled in the fall semester 200Y.
Industries for Employment	It shows the industries in which the individual was found working. No information about the type of work the individual does is available.
Higher Education Institutions for Enrollment	Institution where students enrolled in the following fall (Fall 200Y) after they left the original institution
CIP Areas for Enrollment	Majors declared by students when they enroll in the following fall (Fall 200Y)
